

Specification Tools and Resources (STAR) 3.0

ACCESS CONTROL, INTRUSION AND VIDEO SPECIFICATION TOOLS AND RESOURCES

STAR is an innovative offering from Honeywell that provides everything you need to specify Honeywell access control, intrusion or video surveillance systems.

STAR offers an abundance of valuable information to:

- **Educate and Train**
- **Design Systems**
- **Promote and Sell**

FEATURES

EDUCATE AND TRAIN

Get in-depth information and increase your product knowledge so you're better prepared to design systems.

- **System Overview/System Components**
Examples of designed systems.
- **Vertical Solutions**
Review industries that have put their trust in us to secure their vital assets, and find creative design application suggestions specific to each industry.
- **Features and Applications**
Learn about a variety of product features and their typical applications.
- **Product Documentation/Product Matrix**
Product literature including AutoCAD drawings, datasheets, A&E specs, user guides and more!
- **Online Learning**
Enroll in courses and programs that expand your knowledge and help you keep up with emerging technology.

DESIGN SYSTEMS

Design a customized system based on the specific application requirements of your project.

- **System Wizard**
Guides you through every step of the process to design an access, intrusion or video system and automatically generates a custom parts list, a system configuration and installation (job) summary, and an A&E document for the system you design.
- **Calculators and Storage Estimators**
Ensures that the right equipment is chosen for your project. Saves you time by doing the work for you!

It is perfect for:

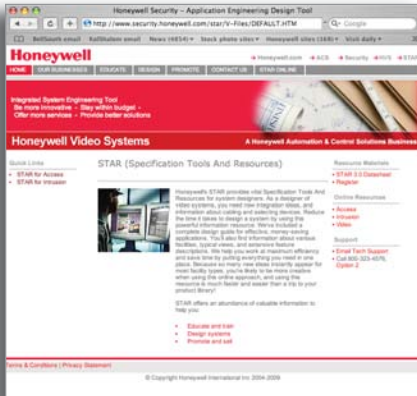

- Commercial building architects and engineers
- Commercial security dealers
- System designers and consultants
- Sales professionals
- Security surveillance managers
- Loss prevention managers

PROMOTE AND SELL

Use these additional resources available to help you grow your business.

- **Start Presenting**
Everything you need to design presentations and assist you with submitting your system recommendations.
- **Literature XPress**
Online service that lets you instantly personalize Honeywell marketing materials with your company logo, phone number and more.
- **The Security Channel**
Enliven your company website by easily embedding videos about Honeywell products and solutions.
- **Photo Library**
Online library with downloadable photos of Honeywell products.
- **Videos**
Learn about Honeywell's exciting products with these demonstration, promotional and case study videos.

Intrusion

STAR 3.0 generates:

Qty	Part#	Description	Package	Price
1	14279	Justify for PTC Dome	3-4x4x10	\$ 875.00
2	14449	Alpha 400 medium camera for Fusion Edge	9.0x9.0 Lens	\$ 1,600.00
4	145521716	4x DCR-Dome, medium-head DCR in Frame, 1.75 Depth	8.0x9.0 Lens	\$ 800.00
1	145242724	Fusion 8100 7.4 Megapixel IP Digital Video Recorder with 4x 1600x1200 HD Channels with Fusion Edge	8.0x9.0 Lens	\$ 11,400.00
2	145242724	Fusion 8100 7.4 Megapixel IP Digital Video Recorder with 4x 1600x1200 HD Channels with Fusion Edge	8.0x9.0 Lens	\$ 4,200.00
2	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 875.00
4	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 775.00
2	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 1,240.00
2	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 1,100.00
2	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 450.00
2	14552	4x DCR-Dome, Super-Hi Res, Color, IP, 1.75 Depth, 8.0x9.0 Lens, 1.75 Depth	8.0x9.0 Lens	\$ 800.00

FIRE ALARM, AND ELECTRONIC SENSING AND CONTROL SYSTEM	
Honeywell Security 167 E. Main Way Ipswich, New York 11791 1-800-445-7548	

A&E Specification Document

Configuring the System

The Access Control system shall consist of 6 controlled openings using Honeywell PRO2000 series access door controllers. System users shall present the POC-A card as they approach controlled openings to request that the system check. Each system user shall have a credential, and shall be assigned to one or more Access Levels. The system will include 7 Access Levels, or user privilege configurations for assignment to system users.

System Administration

The system shall include a Software based package for unlimited administration stations that will feature In-Person and Floor Plans software. The system shall allow unlimited concurrent users to operate the system at once. Workstations will allow the administrator to remote control doors, assign schedules to doors, enable and disable user credentials and other site system administration tasks.

Badge Enrollment and Creation

The system shall include 1 badge enrollment stations using M5000. All badge printers that offer general options including double-edged card printing, no encoding for magnetic card readers, and no services to add primitive encoding to cards.

Each badge enrollment station shall use PSCAM14 cameras mounted upon P8110 FOD tripod. Enrollment stations shall also include P8143 camera lights for consistent lighting during the photo badge enrollment process.

Collecting Vital Information

The installer shall verify user configuration intentions prior to configuring the system. Generally system configuration requires that the installer collect the following information:

1. Investigate and list scheduling options for system openings that allow the system to unlock and lock at specified times or on specified days.
2. Create a list of user identification (photo or photo) to which you will assign users as Access Levels.
3. Collect the names of each system user.
4. Assign an Access Level to each user.
